The purpose of this Policy is to ensure that the course name, testamur award title and abbreviation of a course are established in accordance with clearly identified standards, and that these standards are applied consistently across the University.

Policy on Nomenclature of Award Courses at UTS

Contents

1. Purpose
2. Scope
3. Definitions
4. Policy principles
5. Policy statements
6. Roles and responsibilities
7. Version control and change history

1. Purpose

The purpose of this Policy is to ensure that the course name, award title and award abbreviation of a course are established in accordance with clearly identified standards, and that these standards are applied consistently across the University.

2. Scope

The Policy applies to all levels of award courses as identified in Rule 13.7 of the UTS Student Rules.

3. Definitions

Unless specified, the definitions of terms used in this Policy follow those stated in the Student Rules, Schedule 1. For easy reference, the following are listed:

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
<th>Defined in</th>
</tr>
</thead>
<tbody>
<tr>
<td>Academic transcript</td>
<td>Official University printed document that provides an accurate statement of the official information held by the University and which satisfies the University’s responsibilities to the student and other third parties (including other universities) for adequate and appropriate representation of relevant information about a student’s academic and academic related</td>
<td>Schedule 1</td>
</tr>
</tbody>
</table>

<tr>
<td>Short Title</td>
<td>Course name created for administrative purposes in CASS if the full title is more than 80 characters.</td>
<td>Curriculum data in CASS (PDF, restricted access)</td>
</tr>
<tr>
<td>Testamur</td>
<td>Official certificate of the University that attests to a particular person having satisfied the requirements for and graduated from a particular award course of the University at a particular time.</td>
<td>Schedule 1 (Student Rules)</td>
</tr>
</tbody>
</table>

4. **Policy principles**

4.1 All UTS award courses must have a course name, an award title and an award abbreviation approved by the Vice-Chancellor in accordance with the principles and statements in this Policy and following the [Course Name and Award Title Nomenclature Approval Procedures](#).

4.2 Course name, award title and award abbreviation must be easily understood by stakeholders, including students, employers and the general community; accepted on a national and international level; and indicative of a graduating student’s achievements.

4.3 All award course nomenclature must be consistent with the provisions of the [Australian Qualifications Framework](#).
5. **Policy statements**

5.1 **Generic titles**

5.1.1 The course name and award title are usually the same and should generally reflect the following format:

   Level of Award plus Generic Field of Study, for example, Bachelor of Engineering, Master of Science

5.1.2 The award abbreviation reflects the level of award and generic field of study, for example, the award abbreviation for Master of Arts is MA.

5.1.3 Generic titles are usually not used for Graduate Diplomas and Graduate Certificates. Award titles at these levels reflect the specific market for the award and the course content and design.

5.1.4 For all masters by thesis awards, the course name for the masters degree by research will be Master of (Generic field of study) (Research). 'Research' will be included in the award title. The word ‘Research’ in brackets, ie (Research), must appear in both the award title and in the course name immediately after the field of study, not the descriptor. The fact that a masters is a research course is reflected in the abbreviation. For example, Master of Science (Research) in Computing Sciences should be the award title and course name, and the abbreviation should be MSc(Res).

5.1.5 Doctoral degrees usually have the generic title of Doctor of Philosophy, abbreviated PhD.

5.1.6 For professional doctorates, the title would usually be Doctor of (generic field of study or specific field of study).

5.1.7 For bachelor honours degrees, the word ‘Honours’ in brackets, ie (Honours), must appear in both the award title and in the course name immediately after the field of study, not the descriptor. The fact that a course is a honours course is also reflected in the abbreviation. For example, at a bachelor level, Bachelor of Arts (Honours) in Communication is the award title and course name and the abbreviation is BA(Hons). (See 5.4.3 Classification and grading of awards for bachelor's degree with honours.)

5.1.8 For combined degrees involving an International Studies component, the professional component of the degree should precede the Bachelor of Arts in International Studies in the course name, for example, Bachelor of Engineering Bachelor of Arts in International Studies (BE BA), Bachelor of Laws Bachelor of Arts in International Studies (LLB BA), Bachelor of Arts in Communication Bachelor of Arts in International Studies.

5.1.9 Approval of the use of a generic title should be based on the following considerations:

- accurate description of the level of award
- recognition of the principal discipline of study with regard to:
  - the course objectives and learning outcomes
  - the structure and content of the course
  - the extent of the recruitment or marketing demands for the title
  - the extent of the professional or employment demands for the title, and
  - the extent of the use of titles in the national and international community
• the number of generic titles in the general academic or professional area being used by the University
• consistency and articulation of the title with those being utilised at the higher or lower degree level
• government requirements for grouping courses of study.

5.2 Exceptions — specific fields of study and descriptors

5.2.1 Where no generic field of study obviously reflects the particular subject matter of a course, a specific field of study may be approved as part of the course name and award title. The specific field of study is also reflected in the award abbreviation. In these circumstances the course and award nomenclature format is as follows:

Level of Award plus Specific Field of Study, for example Master of Professional Accounting, abbreviated MProfAcc.

5.2.2 Descriptors may be approved as part of the course name and/or award title of a course to reflect a specialisation or major. The descriptor is not reflected in the award abbreviation. For example, Bachelor of Design in Interior and Spatial Design is abbreviated BDesign, Master of Business in Finance is abbreviated MBus.

5.2.3 A course may have a course name and award title that differ. This is usually to reflect the further division of a specialisation, for example the course name of the Bachelor of Engineering is different from the award title which includes the major of specialisation: Bachelor of Engineering in Civil Engineering, Bachelor of Engineering in Mechanical Engineering.

5.2.4 The approval of the use of a specific title and inclusion of descriptors in award titles should be based on the following considerations:

• the extent of specialisation within the degree program, compared with the full requirements of the program in terms of course objectives, learning outcomes, structure, duration
• the extent of the professional or employment demands for the specific title and/or descriptors
• the possibility of misunderstanding/misinterpretation by students and employers
• the life expectancy of the title, especially if it is market driven at a particular time in a specific environment
• the perception of usage of the specific title from a national and international perspective
• the number of specific degree titles in the general academic and professional areas used by UTS
• the assessment of the full impact if the proposed title is not approved, for example, its effect on any agreements with external partners.

5.3 Abbreviations

5.3.1 Abbreviations need to be considered for appropriateness, consistency and effectiveness of identification of the course. They should not be too complex or lead to possible misinterpretation.

5.3.2 As far as possible, award abbreviations should include only the major field of study of the award; for example, the award abbreviation for the Bachelor of Arts in Communication (Journalism) is BA.
5.4 **Classification and grading of awards**

5.4.1 Classification and grading of awards shall be in accordance with UTS Rule 13.7.

5.4.2 Where an award is classified, criteria for classification and changes to these criteria shall be approved as part of the course and award nomenclature approval.

5.4.3 The grading of an award course must be indicated in the award title on the testamur and not in the course name or award abbreviation. The level of honours or grading will appear at the end of the award title, for example, Bachelor of Science in Information Technology with First Class Honours, Graduate Diploma in Engineering with Distinction.

5.5 **Number of testamurs**

5.5.1 For all combined degrees, including combined degrees involving an International Studies component, two testamurs are issued, one for each award component of the combined degree. For example, for the Bachelor of Arts in Communication Bachelor of Arts in International Studies, graduates receive a testamur for the Bachelor of Arts in Communication and a testamur for the Bachelor of Arts in International Studies.

5.5.2 The Bachelor of Arts in International Studies can only be awarded when the other component degree has been completed and awarded.

5.5.3 For dual programs of study, UTS issues a testamur only for the UTS course award completed as part of the program. The course name, award title and award abbreviation for the UTS course are approved in accordance with this Policy.

5.5.4 For doctoral degrees completed under a cotutelle agreement, successful candidates receive a doctoral award from each of the two participating institutions. The UTS testamur and official academic record states that the degree was obtained under a cotutelle agreement with the <named> institution. The course name, award title and award abbreviation for the UTS course are approved in accordance with this Policy.

5.6 **Editorial conventions**

5.6.1 For bachelor’s degrees, master’s degrees and doctoral degrees, the field of study should be indicated by using ‘of’, for example, Bachelor of Arts, Master of Laws. For diplomas and certificates, the field of study should be shown by using ‘in’, for example, Graduate Diploma in Engineering. Descriptors should be reflected by using ‘in’, for example, Bachelor of Arts in Communication. In exceptional circumstances, brackets may be used in the award title for a further division of a specific field of study, for example, Bachelor of Arts in Communication (Information and Media).

5.6.2 There is no space between the level of award and the descriptor, for example, BBus, BEngSc.

5.6.3 There is a space between the two qualifications for combined degrees, for example, BSc BA, BE BSc, BE DipEngPrac.

5.6.4 Acronyms should not be used in course names, award titles and award abbreviations, unless specially approved by the Vice-Chancellor.

5.6.5 The short form for ‘electronic’ is ‘e’ in lower case, with a hyphen, for example, ‘e-learning’.
5.6.6 The language of instruction or range of languages of instruction should not be included in the course name nor in the award title. Instead, it should be specified in the academic transcript and the AHEGS.

5.6.7 The following information is not to be included in the course name nor in the award title. This information is recorded in CASS as appropriate.

- Word 'conversion' in conversion courses
- Location of offer (Kuring-gai, Hong Kong)
- Mode of delivery (distance)
- Study pattern (part-time, full-time, block)
- Payment arrangements (fee-paying, scholarship)
- Admission standards/requirements (limited work experience; graduate entry).

5.6.8 There should be no punctuation mark, for example, full stop, comma, colon or slash, in a course name or award title. A hyphen is allowed only where this is part of a commonly accepted discipline area, for example, ‘e-learning’, ‘cross-border’.

5.6.9 The only information that can be shown in brackets in course names is:

- (Honours) for honours degrees
- (Research) for master’s research degrees
- When there is a need to use the brackets in a course name for a further division of a specialisation of a generic degree, for example, Bachelor of Arts in Communication (Information and Media) (see section 5.6.1).

5.7 Procedures for approval

Approval of individual course names, testamur award titles and abbreviations for award courses is by the Vice-Chancellor in accordance with the principles and statements in this Policy and following the Course Name and Award Title Nomenclature Approval Procedures.

6. Roles and responsibilities

Accountable Officer: Deputy Vice-Chancellor (Education and Students)

Implementation Officer: Manager, Academic Programs Office in the Institute for Interactive Media and Learning

Faculty Board approves proposed course name and award title for award courses for submission to the Vice-Chancellor’s approval in accordance with the Nomenclature for Award Courses Policy.

Courses Planning Committee may comment on proposed course name and award title for new award courses in accordance with the Nomenclature for Award Courses Policy.

Provost endorses individual course names, award titles and award abbreviations for all award courses in accordance with the Nomenclature for Award Courses Policy.

Vice-Chancellor approves individual course names, award titles, award abbreviations and classification of award for all award courses in accordance with the Nomenclature for Award Courses Policy.

Academic Programs Office maintains, updates and publishes the register of abbreviations for courses and subjects.
